Dear Prof. Kalmar
Mrs. Kalmar

News of your success in socialist construction delight me immeasureably. Though you suffed great losses in 1956, you still score one victory after another. It shows the correct guidance of your government and revolutionary party. These days our papers are full of glad tidings from your country. Allow me to give you my best wishes to your great country and people.

Here in China, celebrations have been held and a Hungarian film week is going on in Peking. I hope to see one of your films in Shanghai.

My love to your family.

Wang Hui-ling
