PAPIRIPARI VÁLLALAT

KISKUNHALASI GYÁRA

UNIVERSITY OF DENVER

COLORADO SEMINARY

Department of Mathematics

University Park, Denver, Colorado 80210

September 14, 1970

Professor Laszlo Kalmar  
Research Group on Mathematical  
Logic and Theory of Automata  
Hungarian Academy of Sciences  
Somogyi Bela u. 7  
Szeged, Hungary

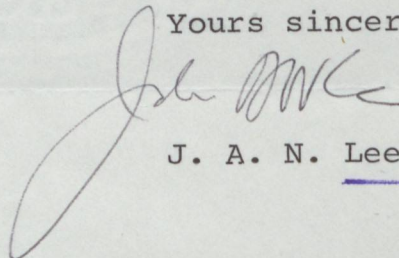

Dear Professor Kalmar:

Michael Arbib has sent me a copy of your letter of June 20th, which mentions my proposed "FORTRAN ENGINE" project of some years ago. Unfortunately, although we spent some time in preparation, the University of Massachusetts was not in a position to support industrial (as opposed to governmental or institutional) research. One of these days we will attempt to get funding support again.

In the meantime, I have been following the formal definition work of Peter Lucas, et. al., of IBM Vienna. In fact, I shall be in Budapest in October, at the invitation of the Bolyai Janes Mathematical Institute, to discuss this work.

I should appreciate the opportunity to meet with you at this time and to discuss common projects.

Yours sincerely,

J. A. N. Lee
