Dear Dr. Szent-Györgyi,

I have been intending for some time to write & send my congratulations on your Nobel Prize, & now at last I have seen in Science another piece of news which drives me to write at once - I mean the notice of your lectureship at Vanderbilt next year. I look forward to seeing you then, as we shall only be 600 miles apart! But half way between Durham & Nashville are some glorious hills - we might meet & walk on them.

With hearty congratulations on your Prize,

Yours sincerely
W. G. Dana
